▸ Learning outcomes

By the end of the course, delegates will:

- understand modern IAS based accounting, how do the accounts link together and will be able to construct accounts for a company.
 - understand the commercial significance of the different components of the accounts - what do the numbers tell us about the value of a business and its solvency ?
 - be able to calculate and use a range of valuation and risk metrics.
 - understand what different or adjusted metrics to use in analysing companies from different sectors and how to calculate those metrics.
-

▸ Delivery Methods [available methods depend on the course]

Bring In-House

If you have a number of people who require the training, you might find it more economical to have the training at your offices. Our trainers are armed with all the equipment and materials necessary. All you need to do is supply the room, and after the course, we'll send your certificates of attendance in the post.

In addition in-house courses can be tailored to meet the precise needs of your business. This could mean tailoring a course for a business unit; combining elements of different courses to match your exact specification; or producing a course from scratch.

Enquiries

Please complete [the following form](#) and we'll get in touch to discuss your requirements in detail.

Off-site Training

Our training facilities can also be used for company 'off-site training'. So if you want to have an 'in-house style' training session away from your own offices, or you simply don't have the facilities, then you can use ours.
